		Curriculum planning and assessment	✓
	Professional leadership	Building leadership teams	
	Positive climate for learning	Empowering students and building school pride	✓
		Setting expectations and promoting inclusion	
	Community engagement in learning	Building communities	

Improvement Initiatives rationale:
 Explain why the school, in consultation with the Senior Education Improvement Leader (SEIL), has selected the above Improvement Initiative/s as a focus for this year. Please make reference to the evaluation of school data, the progress against School Strategic Plan (SSP) goals and targets, and the diagnosis of issues requiring particular attention.

- Literacy learning is the right of every student and every student has the potential to learn. The Four Blocks to Literacy approach provides a framework to introduce and expand literacy skills to all students at Glenallen. It provides many strategies for both emergent and conventional literacy learners particularly students with additional and complex communication needs. This approach is based on implementing structured lessons in Guided Reading, Self-Selected Reading, Writing and Working with Words.
- Glenallen School has a focus on strengthening teacher practice to improve student outcomes by creating a whole school culture of accountability and feedback through effective professional learning.
- Health and wellbeing programs have a positive and significant impact on attitudes to learning, social relationships and student achievement. The Glenallen Health and Safety program will support students' physical needs, foster a sense of belonging, develop students' self-management and awareness of self and others.

Key improvement strategies (KIS)
 List the Key improvement strategies that enable the implementation of each Improvement Initiative. This could include existing strategies already being implemented as well as new ones identified through analysis of data, evaluation of impact of prior efforts, measurement of progress against targets and the diagnosis of issues requiring particular attention. KIS may be specific to one outcome area or applicable across several areas.

Section 4: Annual Self-Evaluation

[Drafting Note Annual self-evaluation section enables schools to continuously collect, monitor and analyse school data about all aspects of school performance. This ensures that all aspects of school performance are considered throughout the year and that any risks, issues and opportunities are identified as they emerge. The Annual self-evaluation against the Continua of Practice should be completed as data becomes available]
